 SUBJECT PROPERTY

Realizing the opportunity to do more - and better - through collaboration, a circle of established partners have come together with a shared goal to establish a new and innovative Indigenous-led Well-Being Centre in the McQuesten neighbourhood. This new community centre of integrated health, family, social and housing services and supports will operate under the name **Biindigen Well-Being Centre**. Future Official Plan Amendment and Zoning By-law Amendment applications are required to facilitate the mixed-use development which will include up to 100 housing units, a medical clinic, and a daycare.

A Neighbourhood Open House & Barbecue was held on September 12, 2024, to share the vision of the Biindigen Well-Being Centre. The site and building designs have evolved since that time. The purpose of this second Open House is for you to learn more about the preliminary designs and proposed development applications. There will be opportunity to ask questions and share your comments with the Biindigen Partners, design team, and representatives from the City of Hamilton before the Official Plan Amendment and Zoning By-Law Amendment applications are filed. The City will hold the required Statutory Public Meeting at a later date and notice will be provided.
